CMU College of Medicine – GME Office; Ramping up in Research

Working Effectively with a Statistician

Beth Bailey, PhD, Professor Foundational Sciences and Director of Health Services Research, CMU College of Medicine, Mt Pleasant, MI

Asef Hoque, MA, Data Scientist, CMU College of Medicine, Mt Pleasant, MI.

Tuesday, November 12, 2024. 7:30a-8:30a; Online.

Contact: GME Office at 989-746-7880

1.0 AMA PRA Category 1 Credit™

Course Description:

"Statistics is a language for communicating what we can learn from data," according to a past president of the Royal Statistical Society, Deborah Ashby. For many physicians, this 'foreign language' is clarified by engaging with a statistician to analyze data and explain the results of a research project. Understanding the importance of phrases such as "intention to treat" or "power" in research involves giving the statistician the understanding of a project. By working well with a statistician, a researcher can provide honest, trustworthy new information to their medical colleagues.

Upcoming Sessions:

December 10, 2024: Writing an Effective Abstract

January 7, 2025: Presenting Research – Getting the Point Across in an Oral or Poster Presentation

February 4, 2025: Finding Funding Sources and the Grant Process
