HEALTH PROFESSIONALS TRUST ESSENTIAL EVIDENCE PLUS (EE+) TO HELP:

- Improve patient outcomes
- Inform point-of-care decisions
- Save time and stay organized on the front line
- Stay up to date with the latest evidence

EE+ is a powerful, comprehensive clinical decision support system that integrates information on 9,000 diagnoses into healthcare professional's clinical workflows. This clinical tool, created by an international team of renowned medical experts, was developed for physicians, nurses, and other healthcare professionals on the front line of patient care.

EE+ features over 13,000 topics, guidelines, abstracts, tools, images, and summaries covering the most common conditions, diseases, and procedures clinicians come in contact with every day. Every recommendation carries a strength-of-evidence rating that accurately grades each recommendation's merit on the basis of all of the evidence available in the relevant literature.

In addition, **EE+** links extensively to abstracts of Cochrane Systematic Reviews, along with the full text of these reviews where a subscription to the The Cochrane Library is in place, to ensure that our users always have access to high quality evidence-based healthcare information where it exists.

Expert Editorial Team

Editor-in-Chief

Mark H. Ebell, MD, MS

Associate Professor
University of Georgia
Athens, Georgia

Associate Editors

Kenneth Lin, MD

Associate Editor
American Family Physician
Assistant Professor of Clinical Family Medicine
Georgetown University School of Medicine
Washington, DC

Mindy Smith, MD, MS

Professor of Family Medicine
Michigan State University
East Lansing, Michigan

Assistant Editors

Steven R. Brown, MD

Associate Program Director
Banner Good Samaritan Family Medicine Residency
Clinical Associate Professor
Department of Family and Community Medicine
University of Arizona School of Medicine
Tucson, Arizona

Su-Ting Li, MD, MPH

Assistant Professor of Pediatrics
Pediatric Residency Program Director
Vice Chair of Education
University of California, Davis
Davis, California

Erik Lindbloom, MD, MSPH

Associate Professor
Director of Family Medicine Fellowship Program
Associate Director of Family Medicine Residency Program
University of Missouri
Columbia, Missouri

Richard Usatine, MD

Professor
University of Texas Health Science Center at San Antonio
San Antonio, Texas

POEM Editors

Henry C. Barry, MD, MS

Associate Professor
Michigan State University
East Lansing, Michigan

Mark H. Ebell, MD, MS

Associate Professor
University of Georgia
Athens, Georgia

Linda French, MD

Professor and Chair
Department of Family Medicine
University of Toledo
Toledo, Ohio

Nita Shrikant Kulkarni, MD

Assistant Professor in Hospital Medicine
Northwestern University
Chicago, Illinois

Allen F. Shaughnessy, PharmD

Professor of Family Medicine

Internal Medicine Clerkship Director
East Lansing, Michigan

Randall Forsch, MD, MPH

Assistant Professor
University of Michigan
Ann Arbor, Michigan

Linda French, MD

Professor and Chair
Department of Family Medicine
University of Toledo
Toledo, Ohio

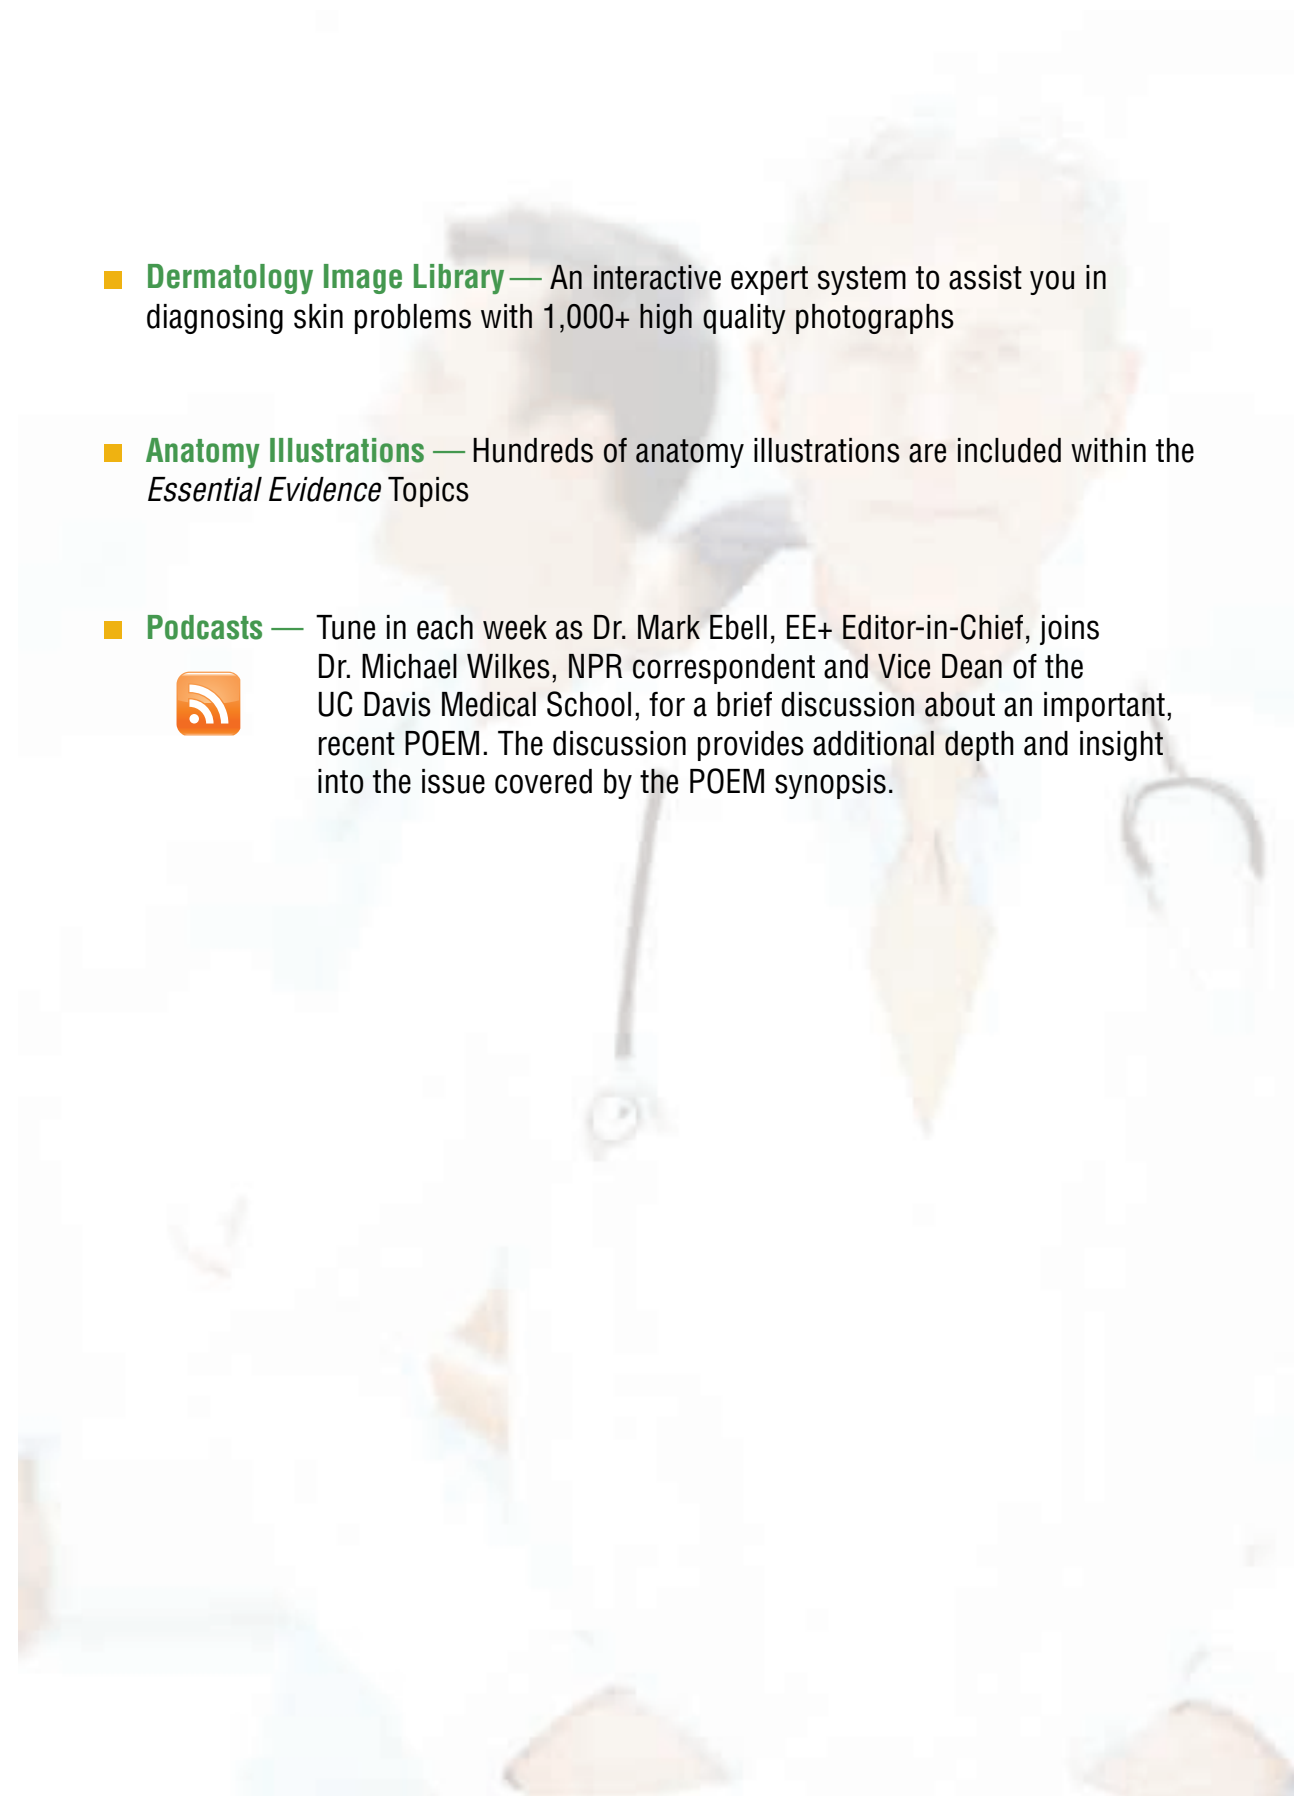

Michael Wilkes, MD

Professor of Medicine
University of California, Davis
Davis, California

Get the answers you need anywhere, anytime

***Essential Evidence Plus* provides access to diagnostic answers and tools you won't find in any other comparable product.**

- **Essential Evidence Topics** — Provide best-evidence answers to the most important clinical questions concerning symptoms, diseases, drugs, and other treatment regimens. Its concise, highly structured content is tightly integrated and hyperlinked to thousands of calculators, articles, Cochrane Systematic Reviews, and evidence summaries within **EE+** to make searching for answers quick and seamless. Each topic has a “strength-of-evidence” rating for every recommendation, a “Bottom Line” summary that introduces each section, and a broad array of algorithms to aid in the decision-making process.
- **POEMs (Patient Oriented Evidence that Matters) Research Summaries** — Daily e-mail alerts and 5,000+ archived POEMs summarize the most recent, relevant research from over 100 journals to help you stay up to date in your practice
- **Decision Support Tools** — 400+ enable you to assess risk and probability, estimate the reliability of a diagnosis and prognosis, calculate a patient's risk for disease, select the safest and most effective drug dosage, and much more
- **Integration with AHFS DI® Essentials™** — from the American Society of Health-System Pharmacists, distills essential information on prescription and key over-the-counter (OTC) drugs in an easy-to-use and highly structured outline format
- **Cochrane Systematic Reviews** — 5,800+ abstracts of Cochrane Systematic Reviews, the gold standard for evidence-based therapeutics, with links to the full text with a subscription to The Cochrane Library
- **EBM Guidelines** — 900+ practice guidelines, 4,400+ evidence-graded summaries, 1,300+ high quality photographs, and audio and videos for some of the most common diseases and procedures.
- **Diagnostic Test Calculators** — 1,900+ indicate which tests to order and assist you in interpreting the results
- **History and Physical Exam Calculators** — 1,700+ guide you to the most statistically accurate diagnosis possible based on a patient's history and physical exam findings

- 
- **Dermatology Image Library** — An interactive expert system to assist you in diagnosing skin problems with 1,000+ high quality photographs
 - **Anatomy Illustrations** — Hundreds of anatomy illustrations are included within the *Essential Evidence* Topics
 - **Podcasts** — Tune in each week as Dr. Mark Ebell, EE+ Editor-in-Chief, joins Dr. Michael Wilkes, NPR correspondent and Vice Dean of the UC Davis Medical School, for a brief discussion about an important, recent POEM. The discussion provides additional depth and insight into the issue covered by the POEM synopsis.
