

Essential Evidence Plus Daily POEMs Alerts

- Available to those subscribers of the Essential Evidence Plus (EE+) product from STAT!Ref, Daily POEMs are e-mail alerts that identify the most valid, relevant research to help you practice. Monthly, the complete set is compiled and sent for additional summary review. Each Daily POEM is also added to the Daily POEMs database in EE+, for easy future reference.

Ongoing since 1996, EE+ editors now review more than 1,200 studies monthly from more than 100 medical journals, presenting only the best and most relevant as POEMs. The acclaimed POEMs process applies specific criteria for validity and relevance to clinical practice. About 1 in 40 studies qualifies.

Manage POEMs

- To manage your Daily POEMs email subscription go to “My STAT!Ref” on your STAT!Ref subscription home page as shown below. Don't have a My STAT!Ref preferences account? Follow the simple steps to create one, with your username as your e-mail address and a desired password.

The screenshot displays the STAT!Ref website interface. At the top, there are navigation links for "Home" and "Bookshelf". A search bar is prominently featured with the text "Enter a search query and click Go:" and a "Go" button. To the right of the search bar, there are links for "My STAT!Ref", "Help", "Support", and "Admin". A "Logout" button is also visible. Below the search bar, there are three main content sections: "STAT!Ref Innovations", "STAT!Ref Mobile Apps", and "Training Center". The "STAT!Ref Innovations" section includes links for "Full Title Updates", "Newest Resources", and "STAT!Ref Blog". The "STAT!Ref Mobile Apps" section promotes a free mobile app and includes a link for an instructional video. The "Training Center" section lists various resources like "STAT!Ref Demo Tutorial", "Other STAT!Ref Videos", "STAT!Ref Quick Guide", "Stedman's Quick Guide", "MedCalc 3000 Quick Guide", "Evidence Alerts - How to", and "Medical News Feed - How to". A "Follow Us On" section with social media icons is also present.

- Then, click on the “Alerts” tab and click “Enable” to activate the Essential Evidence Plus Daily POEMs, as shown below. Choose the frequency for your alerts: Daily or Weekly.

 The Latest Patient Oriented Evidence that Matters

[Bridging anticoagulation in patients with AF associated with stroke, CVA and bleeding](#)

Study Design
 Cohort (prospective)

Bottom Line
 This study provides more evidence that bridging in patients with nonvalvular atrial fibrillation not only does not improve outcomes, it is actually associated with a higher risk of both bleeding complications and cardiovascular events.

Synopsis
 Bridging anticoagulation substitutes an anticoagulant that is slower to reverse (such as warfarin) with one that is easily reversed in case of emergency (heparin) in patients undergoing a surgical procedure. But does all that hassle really improve outcomes? A recent randomized trial in patients... [read more!](#)

[Abliracimab has minimal net benefit for patients with psoriasis \(IDYSSSEY LONG TERM\)](#)

Study Design
 Randomized controlled trial (double-blinded)
