VA Goal for Health Professions Trainee (HPT) Onboarding

Day One Readiness

Every Health Professions Trainee

- Fully onboarded
- Trained, provisioned
- Ready to care for Veterans on **Day One** of their VA experience

Previous Requirements for Screening HPTs

Special Agreement Check (SAC)	National Agency Check with Inquiries (NACI) or Tier 1 Background Check
Majority of Health Professions Trainees were exempt from a Tier 1 and therefore in this category	Very limited number of HPTs (>180 aggregate days or >1 year of continuous service), i.e. medical students on longitudinal integrated clerkships of over 6 months duration, VA-based chief residents
Fingerprint check, FBI database check, no special form needed	SAC plus FBI investigation (interviews, etc.), requires trainees to fill out a form to list their relatives, residences, etc. (estimated time 2 h)
Approximately 48 hours turnaround time	Highly variable, weeks to months, must be completed within the first year of service
Trainees were issued a PIV-I card for three years	Trainees were issued a PIV card for three years

New Requirements for Screening HPTs

- US Citizens & lawful permanent residents in the country for > 3 years
 - Tier 1 Background Check
 - 3-year PIV card
- Non-US Citizens
 - FN Federal Records Check
 - PIV-I card with six-month certificates

US Citizen Checks

Project Timeline

VA Challenges

- Workflow still under development
 - Integration into the Account
 Provisioning and Deprovisioning System
 - Additional personnel
 - Information Technology upgrades
- May be delays in the ability of HPTs to be on-site on Day One

Academic Affiliate Considerations

- Timing of background checks?
- Recruitment season underway
- Coordination with VA onboarding processes
- Retrospective evaluation of suitability
 - Do not have required data to complete background checks on existing non-US citizen HPTs
 - A separate time and resource-intensive process
- Academic affiliates and non-US citizen HPTs
 - Provision of data for background checks?
- Concerning findings would preclude HPTs from accessing VA sites
